Welcome

From Angie, our family and staff we want to welcome you to the Quail Valley Farms Annual Fall 2021 Bull and Female Sale. What a year it has been for our operation! We dispersed both breed's mature cow herds in June of this year. This is something we plan on doing every year with our 6 year old cows. What a response we received, and now from that event there are a lot of proven donors running in rancher's pastures across the country and we can't wait to see the profits to come from them.

We also expanded our development area on the ranch. When you come to the sale you will notice several hundreds of acres that have been cleared and small 5 to 10 acre traps built ready to house our young cattle in their development process. These paddocks were designed on challenging terrain in order to give our bulls obstacle test to make sure they can go to the pasture and maintain and sustain themselves.

Last but not least! We were truly blessed and given the opportunity with our partners the Wiley Family Ranch to purchase the entire Blackwater Cattle Company Brangus cow herd from the owners Mike and Penny Coggins and Tracy and Cindy Holbert.

Currently the Fall calving Blackwater herd resides in Louisiana at Wiley Ranch. Where as, the Spring herd resides here at Quail Valley Farms in Alabama. Our plan is to expand the Blackwater genetic base with our extensive ET and AI program. We are on a full steam ahead approach to continue the legacy of this great herd! With the help of American Marketing Services and Tracy Holbert we hope to strengthen the program even more. With all that said, we might do a few things different! Like we might share the genetics with you in a little more inclusive way! We may open the semen and embryo tank and say "come and get it". BE SURE and check out the embryos selling in this sale.

Also, be looking for opportunity announcements coming soon that will benefit your operation from this great genetic merger. We truly want the Brangus breed to benefit from this. This herd of cattle was and is second to none and we plan to keep it that way.

On that note we are so proud to be offering in this sale the first cattle from the Blackwater herd since the acquisition. They were hand selected to show case the herd.

Again, thank you for coming and if we can do anything for you please don't hesitate to ask me, Angie or any of the staff.

Sincerely,
Ricky Cleveland

Can't make the sale? Watch & bid online for FREE at www.dvauction.com !

DVAuction
Broadcasting Real-Time Auctions

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make your purchases!

After the sale, contact the sale manager or owner to arrange transportation and payment. **High speed internet** is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles?

During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

All EPDs and footnotes in the Brangus bulls are based off of the September 2021 International Brangus Breeders Association (IBBA) EPD run. IBBA updates EPDs and percentiles on a monthly basis (please visit www.gobrangus.com for the most up to date information).

QUAIL VALLEY FARMS

Brangus Bull Offering —

LOTS 1 - 76

There are exciting times ahead for Brangus breed. GE-EPDs make accuracy of selection in your herd bulls now more sure fire than ever before. Proven carcass and feedlot values will drive higher demand for Brangus progeny in the commercial feeding section. The Brangus replacement female remains the go-to brand in the South and Southeastern United States. The demand for Brangus sired animals continues to grow.

And we have a tremendous offering of herd sire prospects for both our registered and our commercial cattle friends. We have done our best to identify genetically superior dams and herd sires and have propagated those breed leading genetics. The bulls offered are the results of that diligence. Again, you will find cutting edge genetics out of some of the best matings our breed has to offer. Best of all, these genetic packages are available in quantity. There are multiple combinations of full, half and $\frac{3}{4}$ brothers in this offering.

We offer value across the board. The bulls have been rigorously screened for soundness and genetic merit. They have been developed on grass with Purina Cattle limiter as their base feed. They know what it means to convert forage.

We hope you will join us Saturday, October 30th for this offering of outstanding herd sire prospects.

QVF Ms Big Town 30H8

Big Bang is long sided, big ribbed and deep flanked with a world of top. He is moderate in his kind, structurally sound with a world of power and breed average BW. He is sired by Big Town whose sons have sold for \$160,000, \$50,000, \$26,000 and \$23,500 last spring at Mound Creek. His dam is the \$65,000, 30D female sold in Houston 2 years ago. Her sons and daughters have generated in excess of \$260,000 to date for us at Quail Valley. His full sisters sold for \$50,000, \$30,000 and \$17,500 in the Elite sale last June while other Big Town daughters sold for \$80,000 and \$18,000. He scanned over 8% IMF with a 14.45 REA. He writes 11 balanced and highly antagonistic EPD traits ranking in the breed's top 35% or greater including top 15% IMF, 20% WW, Terminal and Fertility Index, top 25% YW and 30% REA and Milk. That is a lot of bang for your buck in a complete package.

Selling 1/2 Semen Interest and Full Possession.

With reason, Cross Fit is among the hottest bulls in the Brangus breed. He is the sire of Big Lake, Hot Shot, Mile Marker and Milestone to name a few, and now QVF Invincible 30H7. It is not surprising our two lead-off would be sons of the \$65,000, 30D. She is truly one of the can't miss donors in the breed. And now the opportunity comes to own Invincible, a uniquely bred herd sire prospect. He writes EPDs ranking in the breed's top 5% WW, 10% YW and IMF and Terminal Index with top 3% SC and 30% REA. His phenotype will match his numerical superiority.

Selling 1/2 Semen Interest and Full Possession.

Selling 1/2 Semen Interest and Full Possession.

Never Ever is sired by Never Surrender, one of the breed's true power bulls and who consistently adds bone, top and looseness. His dam is 23Y66, the recent purchase of Phillips ranch in our June Elite sale for \$12,000. She has generated over \$100,000 in her lifetime with more to come including this herd sire prospect. He projects top 10% WW and YW, top 20% SC and REA, 25% IMF and top 15% Terminal Index and 30% Fertility Index.

Selling 1/2 Semen Interest and Full Possession.

Lot 3

QVF Never Ever 23H9

He is a full brother to Invincible who also sells. Sired by Cross Fit and out of 30D. . It is not surprising three of our four lead-off herd sire prospects would be sons of the \$65,000, 30D. Her sons and daughters have generated in excess of \$260,000 to date for us at Quail Valley. Maternal sisters sold for \$50,000, \$30,000 and \$17,500 in the Elite sale last June. She is truly one of the can't miss donors in the breed. He records top 5% WW, 10% YW, IMF and Terminal Index with top 35% REA EPDs.

QUAIL VALLEY FARMS

Santa Gertrudis Bull Offering

LOTS 77 - 143

We can't tell you how proud of this set of Santa Gertrudis Bulls we are in offering them for sale to the industry. Our hard work of selection allows commercial buyers to come in and select from the top ranking genetics in the entire breed as well as across breeds.

Our Santa Gertrudis cattle grade along with English breeds of cattle. For instance in this sale we have bulls with %IMF of over 8% and 9%. That it is unheard of in most herds of cattle, especially less with indicus derived cattle.

With all that said, Quail Valley Santa Gertrudis bulls allow commercial cattlemen to buy a breed of bull that maximizes maternal and carcass quality through quality and heterocyst and at the same time allows them to keep the so required percent EAR in their herd.

QUAIL VALLEY FARMS

Santa Gertrudis Open Heifers

LOTS 144 - 174

We are very proud of our genetic breeding program that we have built at Quail Valley Farms. Our goal is to accumulate the best genetics available across the breed and strategically and statistically use tools and methods like DNA, EPDs, along with AI and ET to make cutting edge animals. We are so proud of our Fall Yearling heifers that we wanted the public to appreciate them as well with us. In order to do that we thought, well lets sell them! Crazy Huh?? People think we are crazy we know. To say we do things a little different is very true, but our real objective is to prove with any doubt that the cattle you purchase from Quail Valley Farms are OUR VERY BEST!!

WR 429H is an own daughter of Red Doc Trump 5127. This female sets up a nice breeding EPD canvass being posting a low BW, top 4% SC and top 10% milk. She is sure to compliment many of the power, carcass bulls out there.

REA/CWT 1.1, %IMF 4.53

QUAIL VALLEY FARMS

The Flush

LOT 190

Selling the right to Flush any female on Quail Valley Farms including any newly acquired BWCC females whether here or at the Wiley's, any QVF Brangus Female or any QVF Santa Gertrudis Female. Guaranteeing 10 viable embryos. This offering encompasses a host of cattle on their respective breed's cutting edge. It also makes available many never before offered opportunities.

QUAIL VALLEY FARMS

Brangus Females

LOTS 191 - 230

We are selling all our Fall born Brangus females. These yearling heifers are on the cutting edge genetically. Their "look" is equally unsurpassed. You will find a set of big bodied, big topped females who paint 9, 10, 12 EPD traits ranking in the breed's top 30% or greater. They are at the apex of the breed in terms of genetic value.

In addition, we are offering 5 hand selected yearling heifers from our recent Blackwater Cattle Company purchase. This is a one of a kind offering of some of the best and freshest BWCC genetics in the breed.

As you will see, we have also invited some of our friends and neighbors to participate with us in this sale. From them, from us and from the BWCC herd you will find like kind cattle produced by cattlemen striving to impact the breed through our genetics.

We hope you can join us for this one of a kind offering Friday, October 29th at the QVF Sale facility.

She is a Boulder daughter and a member of the BWCC 10 tribe. Her dam is a Blackbelt daughter out of a bigger outlined Resource daughter. There were 17 bulls branded 10 in last fall's BWCC sale and the female sale was led off with two members of the 10 family, Resoure's dam, 10A10, and a Cross Fit daughter out of a full sister to 10A10. We felt it would be appropriate to offer this young powerhouse female. She records 10EPD traits ranking in the breed's top 15% or greater led by top 1% WW, YW, Terminal and Fertility Indexes, 3% Heifer Pregnancy, 4% REA and top 10% IMF.

Saturday, October 30th

12:00 PM **OPEN TANK ONLINE EMBRYO SALE**
CDT bidding opens at close of commercial female sale.

Monday, November 1st

2:00 PM **Quail Valley OPEN TANK Online**
CST Embryo Sale closes

Complete Open Tank Embryo Sale

500+ Embryos to be Offered
Santa Gertrudis, Brangus & Ultrablack

We are offering an open tank sale of QVF embryos. As has been discussed, we have gone to great lengths to identify and own some of the top genetics in the breed. We are choosing to share those genetics and that germplasm through these embryos. These are matings we have put in our cows, have calves on the ground or progeny mates in the sale. Their dam are proven donors or cutting-edge yearling superstars that we can't wait to see progeny out of. We invite you to participate in our online auction and to remember our 40% guarantee if the work is done by a Trans Ova approved technician. (That's a better guarantee than you will get if you put your own embryos in.)

Embryos selling online at www.CattleEmbryoAuctions.com

Bidding & Buying

Buyers can use their current DVAuction.com buyer login and password. To register for a new buyer login, go to www.CattleEmbryoAuctions.com. *It is recommended to register 24 hours prior to the online auction.*

Terms

Terms of the sale are cash or check due at the close of the auction. An invoice will be sent out immediately after sale closeout. All checks need to be made payable to:

American Marketing Services
PO Box 10
Wheelock, TX 77882

**Please contact Trey Kirkpatrick at (979)324-5518 with any questions regarding payment.*

Guarantees

Quail Valley Farms guarantees a minimum of 40% conception rate on each lot of embryos if the transfers are done by Trans Ova Genetics (guarantee based on, and honored off of, a 90 day palpation of recipient). Should a 40% conception rate not be achieved on a lot of embryos, Quail Valley Farms will make up the shortfall with embryos of the same mating or embryos of the same quality as mutually agreed upon by the seller and buyer.

Embryo Location

All embryos are located at Trans Ova Genetics in Bryan, Texas and are being sold FOB Trans Ova Genetics in Bryan, Texas. All embryos were collected and frozen by Trans Ova Genetics and are IVF embryos. Upon receiving payment, releases will be sent to Trans Ova. Contact at Trans Ova: Travis Rocha (979)587-9872 or travisrocha@transova.com

Dam of Lot 10

She is deep sided, wide based and big topped. Her sire, Never Surrender has been responsible for over \$800,000 in progeny sales here and at SVF.

Her dam is 23Y66, the dam of Hollywood, and the recent purchase of Phillips ranch in our June Elite sale for \$12,000. She has generated over \$100,000 in her lifetime. The third sale bull in the offering, Never Ever, is a full brother and there are two more stellar brothers selling. She boasts 10 EPD traits ranking in the breed's top 30% or greater led by top 2% WW, 3% YW, 10% Terminal Index, 15% IMF, 20% REA and top 25% Fertility Index.

Dam of Lots 52, 53, 54, 55, 56, 57, 58

She is the dam of Hollywood and the dam of the two \$20,000 half interest Big Lake daughters that sold in our Elite sale this past June. She is responsible for over \$140,000 in revenue in her lifetime with more to come. Her dam, 23M28, is often referred to as the MVP of Salacoa for the influence she had on that herd. She is well represented in this offering with progeny out of Big Town, Never Surrender and Paragon leading their classifications. She sold to Phillips Ranch in June for \$12,000 and records top 10% IMF, 20% Terminal Index, 25% YW and 30% WW with breed average BW and CED.

Dam of Lots 21, 22

She is also sired by Big Town and was the \$30,000 choice of Penridge Farm. She is a maternal sister to Empower who we also own with Penridge. She scanned 9.3 IMF. She writes 10 EPD traits ranking in the breed's top 30% led by top 4% IMF, 10% Terminal Index, 15% WW, YW and REA, 20% Fertility Index and top 25% Milk. Matings to the breed's best Cross Fit sons, Big Lake and Perfect Fit are exciting.

Dam of Lot 46

She is sired by Never Surrender and her dam is the maternal sister to Never Surrender, 803D6. She has a COI over 18. She boasts 9 EPD traits ranking in the breed's top 25% or greater led by top 1% WW and YW, 2% Terminal Index, 4% REA and top 15% IMF and Fertility Index. A full brother sold last fall for \$7,500 and we have a set of By Design calves on the ground out of her. We like them.

Sire of Lots 21, 31

The jury is in and the Big Lake calves are way good. Targeted at the cutting edge of the beef industry they come easy, are wide based massive mid-dled, stout topped with outstanding structure and we are not sure whether the bull calves or the heifer calves are better. His first progeny, 8-9 month old heifers averaged \$9,200 at BWCC last fall and 2 yearling heifers at the June Elite sale sold 1/2 interest for \$20,000 each. He records 9 EPD traits ranking in the breed's top 35% or greater led by top 1% WW, 2% YW and Terminal Index, 10% IMF, 15% REA and only 2 lbs. of BW. The more we see, the more we like.

Sire of Lots 3, 5, 9, 11, 15, 22, 42, 50

He was our \$90,000 selection in last fall's SVF sale. He is one of the young Cross Fit sons everyone is buzzing about. He is a maternal sib to the \$42,000 Tinseltown and maternal sibs have totaled over \$240,000. His first calves are on the ground and they are powerful and good. He boasts 9 EPD traits ranking in the breed's top 25% led by top 10% WW and YW, 15% Terminal Index, 20% REA and IMF and +8 lbs. of Milk.

Sire of Lots 2, 12, 16, 17, 19, 37, 40, 59

Who knew in the fall of 2014 when Atlanta of Salacoa 488Z sold to a consortium of breeders; The Oaks, Miller, 5K Cowbelle and Truitt Brangus, he would go on to be one of the most influential bulls in Brangus with over 1635 progeny registered and countless commercial daughters across the nation? He is known as the "Superstar of Balance" for a reason. He possesses the big birth to yearling spread and writes 12 EPD traits ranking in the breed's top 35% or greater led by top 4% Fertility Index, 1% Cow Weight, 10% IMF, 15% REA and Terminal Index, 20% BW and WW, 25% YW and top 35% CED. He is a complimentary breeding piece to many matings and his daughters are beginning their contributions as herd bull mothers.

He is perhaps Atlanta's most powerful son. His dam is a Csonka daughter out of the powerful 541Y61 donor now residing at Draggin M. Full brothers to his dam averaged over \$17,000 at Genetix a few years ago. Complete records 12 EPD traits ranking in the breed's top 35% or greater led by top 5% REA, 15% WW, YW and Terminal Index with top 25% IMF and Fertility Index and top 35% Milk.

SR 65/3 was purchased from us by Red Doc Farms as a Super Donor! 65/3 has generated over \$70,000 in revenue in her life time with us. We have many daughters in the herd out of her. Having farms like Schuster and Red Doc invest and own a cow's like genetics should say a lot about her. Both of these operations have invested in her genetics repeatedly.

Sire of Lots 100, 101

Could be argued the best Pistol son out there. We have already generated over \$150,000 in progeny from Capone and still going. With that said, his sons are turning and heads and we have sold herd sire prospects like Gulf Storm, but we think Capone will be famous for his daughters. They are the real deal when discussing what a cow is supposed to look like. Deep and easy fleshing!

KR Churchill 301/15 ranks in the top 45% for 11 EPD traits. We discovered him late, but boy are we excited what we see. His calves are the deepest sided cattle that we have ever seen. With that said, they have a huge top as well. We really think Churchill will end up being one of the GREAT bulls in the history of the breed. Don't pass up on these great matings offered.

Sire of Lot 102

We bought some of the last semen on this Patriarch bull that had over 200 head of natural service sires daughters in the SGBI registry. The word "maternal" is all that needs to be said about CVF 2022.

Terms & Conditions

Bidding

Each animal will be sold to the highest bidder without reserve. The auctioneer will settle any disputes as to bids, and his decision on such matters shall be final.

Terms

Each animal becomes the risk of the purchaser as soon as sold, but it shall be the obligation of the seller to see that animals are fed and cared for until loaded for shipment or until the expiration of 48 hours after the sale, whichever occurs sooner. After 48 hours a maintenance fee of \$5.00 per day will be assessed until pickup unless the female owner or AMS arranges shipment.

Sight Unseen Purchases

Buyers may purchase females or bulls through the owners or American Marketing Service personnel at auction without viewing the cattle. For sight unseen purchases, the buyer has the right of inspection at the time of delivery. If the animal is deemed unsatisfactory, it may be reloaded on the delivery truck and returned to female or bull owners ranch at no obligation to the buyer. All transportation expenses will be the responsibility of the seller. If the animal is deemed unsatisfactory within one week of the purchase, the buyer may at their expense, return the animal to the female owner's ranch for a full refund of the purchase price.

Certificate of Registry

A transferred certificate of registry will be furnished to the purchaser for each registered animal once proper settlement has been made.

Health

Health papers suitable for interstate shipment will be furnished on all animals.

Announcements

Any changes from the information of any kind in this catalog will be provided in a sale day supplement sheet or announced from the auction block and such information shall take precedence over cataloged information.

Breeding Guarantee

1. All animals are guaranteed to be breeders with the exception of:
 - a) calves under 12 months of age; b) animals shown by purchaser after sale in which the guarantee (if any) shall be between the seller and the buyer; c) injury or disease occurring after the sale; d) gross negligence or willful misconduct on the part of the purchaser; e) death by any reason.
2. Safe in calf females have been examined by competent personnel and are so guaranteed.
3. Exposed females have been exposed but are not guaranteed to be safe in calf.
4. Open females have not been served and are so guaranteed.

5. This is not a life insurance policy. Seller will not replace a dead animal if it is killed or dies for any reason. We would suggest that normal care still needs to be exercised toward these animals and that yearling bulls should be fed so they can continue to develop properly.

Pregnancy Determination

The commercial females in this sale noted safe in calf have been determined pregnant by physical palpation or ultrasound technology. Our best estimate of service sire will be given in the case of the females with both an A.I. sire and a natural breeding sire.

Options and Privileges of Return or Adjustment

1. All claims for adjustment or refund must be made in writing within six months of the sale date.
2. In the event an animal is claimed to be a non-breeder, the animal may be returned to owner's ranch, if in good condition and complying with the health requirements of their state. The seller shall be entitled to a six month trial following the return of the animal in which to prove that the animal is a breeder. If at the end of six months the seller is unable to prove the animal is a breeder, the seller shall at the option of the buyer replace the animal with another of equal value or issue a credit for the initial selling price. If the seller proves the animal to be a breeder, it shall be the obligation of the purchaser to take delivery of the animal and pay all expenses incurred for transportation.
3. If an animal is sold and at a later date proves not to be eligible for registration under association rules, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer, refund the purchase price or issue a credit for the initial selling price upon the return of the animal to the farm of the seller.
4. If an animal is sold and through DNA is proven to have incorrect parentage as represented by the certificate of registration, and for which the parentage can be determined, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer, refund the purchase price or issue a credit for the initial selling price upon the return of the animal to the farm of the seller.

Rights and Obligations

1. The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding on both. Other than the guarantees and warranties stated above, no other warranties or guarantees are expressed or implied. Each sale or resale of an animal constitutes a separate transaction.
2. Neither female or American Marketing Service nor any other person connected with the management of the sale, assumes any liability, legal or otherwise.

Make a lasting change with a PARADIGM shift.

Quail Valley Farms is proud to introduce this exciting young herd sire SR Paradigm 135/7.

SR Paradigm 135/7 was purchased from Strait Ranches in the recent 2019 Fall Tried & True Bull Sale.

He is a son of multiple breed carcass and fertility trait leader KR Catalyst 531/15 that semen has never been let out to the breeding public. His dam PH Welder 7/342 is a matriarch donor in the Strait Ranches herd producing other proven herd sires and donors currently being used in their herd. Being a donor, 7/342 still was able to sustain an average calving interval of 374 days after 10 natural calves!!

SR Paradigm 135/7's phenotype is second to none. He impressed so many in person at the sale on visual appraisal on his "Monster Hip" and overall balance and look! He would produce the kind all would like for sure.

SR Paradigm 135/7 currently post 8 EPD traits in the top 15%, including: 1% Marbling, 15% WW, 10% YW, REA, HCW; and 15% Tend.
